

Borow Family Loft was established in 2002 and is a proud member of the Bayshore Racing Pigeon Club and the Central Jersey Combine (CJC).

Our foundation pair was a generous gift from Stanley Krawiec of the Perth Amboy Pigeon Club. This Red Fox Janssen/Van Loon (OHF) Red Check cock and De Klak Janssen Blue Check hen have produced multiple winners, and their offspring continue to breed winners today.

Our focus remains on performance, selective breeding, and the continued strengthening of our family of birds through proven pedigrees.

Over the years, our friend and top CJC combine flyer Joe Allocca of the Bayshore Club has graciously allowed us to work with select birds from his foundation lines. When crossed with our Red Fox Janssen/Van Loon and De Klak Janssen family, these pairings have proven highly successful and have greatly contributed to our racing achievements.

If you're looking to enhance your own family with bloodlines that excel on tough race days and one-bird derbies, consider introducing a bird from these proven, performance-tested lines.
