Father direct son
of “Karel M” -
Mother sister to
“Super 536”

Karel Meulemans from the famous town Arendonk is a living legend in international pigeon racing. A strain of birds spread all over the world. Known over the world as Janssen with this difference that Karel has won many 1st prizes and championships by himself, beginning in the fifties and still winning races and big championships in 2007. Most pigeon fanciers think about the strain Meulemans as middle distance birds. This is not true anymore. Karel switched to fond races (700-850 km) in the beginning of the 90's. He won his first national race on Dax in 1995 and became Champion of Belgium KBDB in 2001 on these distance. He wanted more - he wanted the very long distance also. He managed to get on top of this races also. He became soon famous on this distance in province Antwerp and in the area that he lives. But he is famous in Belgium now in 2007. He is on the top of long distance (6th national KBDB champion) and very long distance (6th national KBDB champion).
