Father to National Winners  
Belg 3222185-02  
\* RAMONA \*  
The PICANOL blood

MY BEST BREEDER EVER!

\* Belg 4090234-11 - SHARKY. Bred by Chris Hebberecht - one of the best long distance fanciers of all Belgium. Here is a family of birds that excel in the longer distance - tougher races - as a youngster or old bird. I visited Chris during a visit to Belgium and had the opportunity to select through his young bird team and add a couple key youngsters to my breeding loft. With one loft races getting tougher each year due to the hot weather and head winds I wanted to bring in a few hard weather birds to toughen up my key breeders.

\* SHARKY is a beautiful male that has what it takes to breed the champion we are all looking for - perfect strong body, supple muscle, clever look plus he is off one of the best families of winners in Belgium. He will breed foundation breeders for anyone!

\* Belg 3070188-11 - GABY'S BEST. Direct daughter of Gaby Vandenabeel's top breeding male - RUDY - (Belg 3008003-06). RUDY was Gaby's top racer for many years and then became Gaby's top breeder - father to Gaby's National Winner and 1st Yearling National Ace Long Distance of All Belgium. Now the world is after the RUDY bloodline due to the great success for Gaby and several other fanciers that have been lucky to obtain the RUDY blood.

\* RUDY is also a son of the famous BLIKSEM which was a son of KOLONEL - which shows you this family has been dominating for over 25 years. GABY'S BEST is the mother to GFL 275-2014 who was the 1st Champion Bird in the San Francisco Bay Triple Crown in 2014. Father of GFL 274-14 is GFL 793-08 - a son of THE NATURAL when mated to MONA LISA (GFL 487-06) - my best breeder ever. The best blood mated to the best blood will breed the best birds!
