The gift from heaven. Ludo Claessens was in his yard when out of nowhere landed this beautiful white grizzle male. Ludo contacted the Belgium Royale Federation who responded to him that the fancier had died and if no one would contact him after 3 months that he could keep or kill the bird. Ludo liked the bird so much that he bred him. He bred the "Golden White (NL-9779802-97)" winner of 13th Provincial Orleans vs 3,069 birds and 4th Provincial Chateauroux vs 2,031 birds (these are 300 and 350 mile races). Golden White went on to be the 3rd Golden Crack winner. She then bred three sons, two of

which won provincial first places competing against 2,000 birds. The other son won top 10 prizes out of 10 races shipped. Each year, the offspring of the Golden Witten have been winners, including the last year - 1999. "Yeti (NL-9964498-99)" won first Morlincourt vs 3,669 birds (also the fastest of 15,000 birds), 5th Etampes vs 5,494 birds, 49th Provincial Orleans vs 3,723 birds, and the list goes on.

Golden Witten is medium size, strong body, super wings, and ultimate breeding eye. The strongest, richest breeding eye in my loft. For the future years to come, fanciers who will have this white grizzle family will be very lucky. They win against the toughest competition in the world!
